

# DIN EN 12416-2:2007-09 (E)

## Fixed firefighting systems - Powder systems - Part 2: Design, construction and maintenance (includes Amendment A1:2007)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		3
1 <b>Scope</b> .....		4
2 <b>Normative references</b> .....		4
3 <b>Terms and definitions</b> .....		5
4 <b>Expellant gas</b> .....		5
5 <b>Extinguishing powder</b> .....		5
6 <b>Components</b> .....		6
7 <b>Reserve quantity</b> .....		9
8 <b>Location of extinguishing powder container and expellant gas container</b> .....		9
9 <b>Safety precautions</b> .....		9
10 <b>Total flooding systems</b> .....		9
11 <b>Local application systems</b> .....		10
12 <b>Control and release of powder extinguishing systems</b> .....		11
13 <b>Pipework design</b> .....		12
14 <b>Documentation, inspection and maintenance</b> .....		17
15 <b>Evaluation of conformity</b> .....		18
<b>Annex A (informative) Example calculations for local application system - surface fire</b> .....		19
<b>Annex B (informative) Example calculations for local application systems</b> .....		20
<b>Annex C (informative) Minimum design conditions for powder based on sodium bicarbonate</b> .....		25
