

# DIN EN 16327:2014-07 (E)

## Fire-fighting - Positive-pressure proportioning systems (PPPS) and compressed-air foam systems (CAFS)

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | 3           |
| Introduction .....    |  | 5           |
| 1                     | Scope .....  | 7           |
| 2                     | Normative references .....   | 8           |
| 3                     | Terms and definitions .....  | 9           |
| 4                     | List of significant hazards .....  | 11          |
| 5                     | Classification and designation .....   | 14          |
| 5.1                   | Classification and designation of positive-pressure proportioning systems (PPPS) .....       | 14          |
| 5.2                   | Classification and designation of compressed-air foam systems (CAFS) .....                   | 15          |
| 6                     | Safety requirements and/or protective measures .....   | 16          |
| 6.1                   | Safety requirements applying to all systems .....  | 16          |
| 6.1.1                 | General .....  | 16          |
| 6.1.2                 | Mechanical equipment .....   | 17          |
| 6.1.3                 | Electrical equipment .....   | 17          |
| 6.1.4                 | Thermal hazards .....  | 18          |
| 6.1.5                 | Ergonomic design principles .....  | 18          |
| 6.1.6                 | System failure and continuation of on-going fire-fighting operations .....                   | 19          |
| 6.1.7                 | Maintenance .....  | 19          |
| 6.1.8                 | Protection against over-speed .....  | 19          |
| 6.1.9                 | Shutdown device .....  | 19          |
| 6.1.10                | Injection of foam concentrates .....   | 19          |
| 6.2                   | Additional safety requirements for compressed-air foam systems (CAFS) .....                  | 20          |
| 7                     | Performance requirements .....   | 20          |
| 7.1                   | Performance requirements applying to all systems .....                                       | 20          |
| 7.2                   | Additional performance requirements for positive-pressure proportioning systems (PPPS) ..... | 22          |
| 7.3                   | Additional performance requirements for compressed-air foam systems (CAFS) .....             | 22          |
| 8                     | Type test report .....   | 23          |
| 9                     | Information for users .....  | 24          |
| 9.1                   | General .....  | 24          |
| 9.2                   | Symbols, warning symbols and warning notes .....   | 24          |
| 9.3                   | Accompanying documents .....   | 24          |
| 9.3.1                 | General .....  | 24          |
| 9.3.2                 | Contents .....   | 24          |
| 10                    | Marking .....  | 27          |
| Annex A (informative) | Guideline for acceptance inspection and testing of each delivered system .....               | 28          |
| Annex B (informative) | Sample of a positive-pressure proportioning system (PPPS) operating range diagram .....      | 29          |

|   |           |
