DIN EN 16925:2019-03 (E)

Fixed firefighting systems - Automatic residential sprinkler systems - Design, installation and maintenance

Contents

Page

European foreword ... 5

Introduction ... 6

1 Scope ... 7

2 Normative references ... 7

3 Terms and definitions ... 8

4 Contract planning and documentation ... 11
4.1 General ... 11
4.2 Preliminary stage ... 11
4.3 Consultation ... 12
4.4 Design stage ... 13

5 Extent of residential sprinkler protection ... 17
5.1 Buildings and areas to be protected ... 17
5.2 Permitted exceptions ... 17
5.3 Design Criteria - limited areas within the building that are not residential occupancies. 19
5.4 Fire resistant separation ... 19

6 Hydraulic design and pipe layout ... 20
6.1 Hydraulic design criteria ... 20
6.2 Locations of the area of operation — Hydraulic demand ... 20
6.3 Hydraulic Calculations ... 20
6.4 Pipe layout ... 21
6.5 Flexible Sprinkler Hose ... 21

7 Water supplies ... 22
7.1 Water supply ... 22
7.2 Backflow prevention ... 22
7.3 Maximum water pressure ... 22
7.4 Housing of equipment for water supplies ... 22
7.5 Test facility devices ... 22

8 Type of water supply ... 23
8.1 General ... 23
8.2 Water main ... 23
8.3 Storage tanks ... 24
8.4 Pressure tanks ... 26

9 Residential Sprinkler System Pumps ... 26
9.1 General – All types of residential sprinkler systems ... 26
9.2 Compartments for pump sets ... 27
9.3 Temperature requirements ... 27
9.4 Valves and accessories ... 27
9.5 Suction conditions ... 27
9.6 Performance characteristics ... 29
9.7 Electrically driven pump set – All types of residential sprinkler systems ... 31

10 Installation type and size 32
10.1 Wet pipe installations 32
10.2 Dry pipe installations 37
10.3 Pre-action installations 37
11 Spacing and location of sprinklers 37
11.1 General 37
11.2 Spacing of residential sprinklers 38
11.3 Distance of residential sprinklers from walls 39
11.4 Deflector position of residential sprinklers 39
11.5 Obstructions in relation to residential sprinklers 39
11.6 Small compartments 46
12 Sprinkler design characteristics and uses 46
12.1 General 46
12.2 Sprinkler types and application 46
12.3 Sprinkler nominal operating temperatures 46
12.4 Sprinkler rosettes and cover plates 47
13 Valves and gauges 48
13.1 Control valve set 48
13.2 Stop valves 48
13.3 Drain requirements 48
13.4 Test valves 48
13.5 Pressure gauges 48
14 Alarms and alarm devices 49
14.1 System monitoring and alarm transmission 49
14.2 Water flow A alarm 49
14.3 Alarm connection 49
15 Pipework 50
15.1 Pipe system 50
15.2 Pipe supports 51
16 Signs, notices and information 52
16.1 Block plan 52
16.2 Signs and notices 53
17 Commissioning tests 54
17.1 General 54
17.2 All pipework 54
17.3 Dry pipework 54
17.4 Completion certificate and documents 54
18 Inspection, testing and maintenance 55
18.1 General 55
18.2 Spare sprinklers 55
18.3 Precautions while carrying out work 55
18.4 Annual inspection 55
18.5 Long-term inspections 57
Annex A (normative) **Sprinkler system zoning 58**
A.1 General 58
A.2 Guidance for zoned installations 58

Annex B (normative) **Sprinkler system monitoring** **59**
B.1 Type 1 systems **59**
B.2 Type 2 and 3 systems **59**
B.3 Functions to be monitored **59**
Annex C (normative) **Transmission of alarms** **61**
C.1 Type 1 systems **61**
C.2 Type 2 and Type 3 systems **61**
Annex D (normative) **Hydraulic calculations** **63**
D.1 Static pressure **63**
D.2 Flow from a sprinkler **63**
D.3 Pipe friction loss **63**
D.4 Pressure loss through fittings and valves **64**
D.5 Velocity **66**
D.6 Accuracy of calculations **66**
Annex E (normative) **Long term inspection and testing of pipework and sprinklers** **67**
Annex F (informative) **Special circumstances** **68**
Annex G (informative) **Typical water supply arrangements** **69**
Annex H (informative) **Precautions and procedures when a system is not fully operational** **72**
H.1 Minimizing the fire safety risk when a sprinkler system is shut down **72**
H.2 Planned shut-down **72**
H.3 Unplanned shut-down **72**
H.4 Action following sprinkler operation **73**
Annex I (informative) **Hydraulic test** **74**
Annex J (informative) **New technology** **76**
Bibliography **77**
