ISO 21364-1:2025-06 (E)

Domestic gas cooking appliances - Safety - Part 1: General requirements

Contents

Page

Foreword ..... **vi**

Introduction ..... **vii**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **2**
3.1 Definitions relating to appliances 2
3.2 Definitions relating to the tests 4
3.3 Definitions relating to components 7
3.4 Definitions relating to the function of the automatic burner control system (ABCS) 10

4 Components in gas cooking appliances **11**
4.1 General 11
4.2 Manual gas shut-off valves 11
4.3 Knobs 11
4.3.1 Design of knobs 11
4.3.2 Marking for knobs 11
4.4 Multifunctional controls 12
4.5 Thermoelectric flame supervision controls 12
4.5.1 General 12
4.5.2 Opening time 12
4.5.3 Extinction delay time 12
4.6 Thermostats 13
4.7 Pressure regulators 13
4.7.1 General 13
4.7.2 Regulation capacity 13
4.8 Automatic shut-off valves 13
4.9 Injectors and adjusters 14
4.9.1 General 14
4.9.2 Injectors 14
4.9.3 Air rate adjusters 14
4.9.4 Low rate adjusters 14
4.10 Ignition systems 14
4.11 Thermal cut-outs 15
4.12 Components for appliances with automatic burner control system (ABCS) 15
4.12.1 General 15
4.12.2 Flame detection system 16
4.12.3 Direct flame establishment 17
4.12.4 Safety in the event of a failure to ignite 17
4.12.5 Safety in the event of a flame failure 18
4.13 Indirect manually operated burner control 18
4.13.1 General 18
4.13.2 Controls having a single closing direction 18
4.13.3 Controls having two closing directions 18

5 General conditions of test **19**
5.1 Reference conditions 19
5.2 Reference and test gases 19
5.2.1 Characteristics of the test gases 19
5.2.2 Conditions for producing test gases 19
5.3 Test pressures 19
5.4 Temperature conditions 19
5.5 Adjustment of the burner 19

5.6 Test installation 20
5.6.1 General 20
5.6.2 Built-in appliances 20
5.6.3 Freestanding appliances 21
5.6.4 Table-top appliances 22
5.7 Characteristics of the test pans 22
5.7.1 Pans required for testing on gas burners 22
5.7.2 Pans required for testing on electric hob elements and induction hob elements 23

6 Heat input 24
6.1 General 24
6.2 Obtaining the nominal heat input 24
6.3 Measurements and calculations 24
6.3.1 General 24
6.3.2 Appliances with automatic burner control system (ABCS) 26
6.4 Obtaining the reduced heat input 26
6.4.1 Requirement 26
6.4.2 Test 26
6.5 Total heat input 26
6.5.1 Requirement 26
6.5.2 Test 26

7 Heating 26
7.1 General 26
7.2 Operating conditions 26
7.3 Heating tests 27
7.3.1 Requirement 27
7.3.2 Test under normal operation 27
7.4 Abnormal operation 30

8 Combustion 30
8.1 Measurement of all burners simultaneously 30
8.1.1 Requirement 30
8.1.2 Test 30
8.2 Blocked combustion products outlet 32
8.2.1 Requirement 32
8.2.2 Test 33
8.3 Analysis of the combustion products 33
8.3.1 General 33
8.3.2 Calculation with CO_2 33
8.3.3 Calculation with O_2 34

9 Ignition, cross lighting and flame stability 34
9.1 General 34
9.2 Movement of oven door, grill door or cabinet door 34
9.2.1 Requirement 34
9.2.2 Test 34
9.3 Test for appliances having an automatic burner control system (ABCS) 34
9.3.1 Requirement 34
9.3.2 Test 35

10 Accumulation of unburnt gas and leak tightness 36
10.1 Accumulation of unburnt gas 36
10.2 Leakage 36
10.2.1 Requirement 36
10.2.2 Tests 36
10.3 Leak tightness of the appliance 36
10.3.1 General 36
10.3.2 Requirement 37
10.3.3 Test 37
10.4 Spillage of unburnt gas inside the appliance 37
10.4.1 Requirement 37
10.4.2 Test 37

11 Construction 37

11.1 General ... 37
11.2 Materials ... 38
11.2.1 General ... 38
11.2.2 Burner material test ... 38
11.2.3 Sealings ... 38
11.3 Gas inlet connections ... 38
11.4 Conversion to different gases ... 38
11.5 Pull forces of knobs for manual gas shut-off valves ... 39
11.5.1 Requirement ... 39
11.5.2 Test ... 39
11.6 Appliances that enable the user to program the cooking cycle ... 39
11.6.1 General ... 39
11.6.2 Electronic timer ... 40
11.6.3 Electro-mechanical or motorized timer ... 40
11.7 Compartment for one gas cylinder ... 40
11.8 Touch controls ... 40

12 Mechanical strength ... 41
12.1 Parts made of glass and glass-ceramic ... 41
12.1.1 General ... 41
12.1.2 Spring hammer test ... 41
12.1.3 Punch test ... 41

13 Electrical safety ... 43
13.1 General ... 43
13.2 Battery powered appliances ... 43

14 Marking and instructions ... 43
14.1 Marking ... 43
14.1.1 Marking on the appliance ... 43
14.1.2 Marking on the packaging ... 44
14.2 Instructions ... 45
14.2.1 General ... 45
14.2.2 Instructions for use and maintenance ... 45
14.2.3 Instructions for use and maintenance of glass parts ... 47
14.2.4 Instructions for the installer ... 47

Annex A (normative) **Table of test gases ... 51**

Annex B (normative) **Purity of gases ... 71**

Annex C (normative) **Accuracy of test equipment ... 72**

Annex D (informative) **Gas supply connections in force in various countries ... 73**

Annex E (normative) **National deviations in various countries ... 79**

Bibliography ... 83
