

# DIN 8076:2008-11 (E)

## Pressure pipelines made from thermoplastics materials - Metal and plastics compression fittings for polyethylene (PE) pipes - General quality requirements and testing

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
1	Scope .....	3
2	Normative references .....	3
3	Terms and definitions .....	4
4	Nomenclature .....	5
5	Materials .....	6
6	Workmanship and appearance .....	8
7	Geometrical characteristics .....	8
8	Type testing -- Requirements for plastics compression fittings during internal pressure testing .....	9
9	Mechanical characteristics .....	10
10	Marking .....	13
Bibliography .....		14
Tables	Table 1 -- Plastics for compression fitting bodies .....	6
	Table 2 -- Requirements for plastic fittings - Materials testing .....	7
	Table 3 -- Metallic fitting materials .....	7
	Table 4 -- Minimum wall thickness of metallic fittings .....	9
	Table 5 -- Requirements for plastics compression fittings .....	10
	Table 6 -- Requirements for compression fittings - Leaktightness when subjected to bending .....	11
	Table 7 -- Requirements for compression fittings - Pull-out test .....	12
	Table 8 -- Requirements for compression fittings - Leaktightness under internal vacuum .....	12
	Table 9 -- Requirements for compression fittings - Leaktightness under internal pressure .....	13
