ISO 2578:1993-08 (E)

Plastics; determination of time-temperature limits after prolonged exposure to heat

Contents

Page

1 Scope 1
2 Normative references 1
3 Definitions 2
4 Principle 2
5 Choice of test 3
6 Choice of end-point 3
7 Test specimens 3
8 Exposure temperatures 3
9 Ageing ovens 3
10 Procedure 3
11 Evaluation of results 4
12 Determination of the relative temperature index 7
13 Test report 8

Annexes

A Calculation of the regression line 9
B Correlation coefficient 13
C Recommended test schedule for primary properties 14
