ISO 4589-3:1996-08 (E)

Plastics - Determination of burning behaviour by oxygen index - Part 3: Elevated-temperature test

Contents

Page

1 Scope 1

2 Normative reference 1

3 Definitions 2

4 Principle 2

5 Apparatus 2

6 Calibration and maintenance of equipment 3

7 Preparation of test specimens 3

8 Procedure 3

9 Calculations and expression of results 4

10 Procedure C — Comparison with a specified minimum value of the oxygen index at a specified temperature (short procedure) 4

11 Precision 4

12 Test report 4

Annexes A Measurement of flammability temperature (FT) 12

B Interlaboratory test data on flammability temperature 14

C Typical test results sheet 15
