European foreword 4

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 7

4 Principle 8

5 Apparatus 8
5.1 Arrangement 8
5.2 Test chimney 8
5.3 Test specimen holder 9
5.4 Gas supplies 9
5.5 Gas control devices 9
5.6 Oxygen analyser 9
5.7 Flame ignite 10
5.8 Timing device 10
5.9 Fume extraction system 10

6 Calibration and maintenance of equipment 10

7 Preparation of test specimens 10
7.1 Sampling 10
7.2 Test specimen dimensions and preparation 10
7.3 Marking of test pieces 10
7.4 Conditioning 10

8 Procedure 11
8.1 Setting up the apparatus and test specimen 11
8.2 Igniting the test specimen 11
8.3 Assessing burning behaviour 11
8.4 Selecting successive volume fractions of oxygen 11
8.5 Determining the preliminary volume fraction of oxygen 11
8.6 Volume fraction of oxygen changes 12

9 Calculations and expression of results 12

10 Comparison with a specified minimum value of the temperature index at a specified temperature (short procedure) 12

11 Precision 12

12 Test report 12

Annex A (normative) Measurement of flammability temperature (FT) 18

A.1 Setting up the apparatus 18
A.2 Igniting the test specimen 19
A.3 Assessing burning behaviour 19
A.4 Selecting successive test temperatures 19
A.5 Determining flammability temperature 19
A.6 Test report 20

Annex B (informative) Interlaboratory test data on flammability temperature 21

Annex C (informative) Typical test results sheet 22

Bibliography 25
