ISO 13761:2017-07 (E)

Plastics pipes and fittings - Pressure reduction factors for polyethylene pipeline systems for use at temperatures above 20 degrees C

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principle 1

5 Procedure 1
5.1 Determination of the applicable pressure reduction factor 1
5.2 Analysis of data by extrapolation 2
5.3 Design lifetime 2

Bibliography 4
