Plastics pipes and fittings - Pressure reduction factors for polyethylene pipeline systems for use at temperatures above 20 degrees C

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principle	1
5	Procedure	1
5.1	Determination of the applicable pressure reduction factor	1
5.2	Analysis of data by extrapolation	2
5.3	Design lifetime	2
Bibliography		4
