

ISO 13761:2017-07 (E)

Plastics pipes and fittings - Pressure reduction factors for polyethylene pipeline systems for use at temperatures above 20 degrees C

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Principle	1
5 Procedure	1
5.1 Determination of the applicable pressure reduction factor	1
5.2 Analysis of data by extrapolation	2
5.3 Design lifetime	2
Bibliography	4
