DIN EN ISO 14853:2018-02 (E)

Plastics - Determination of the ultimate anaerobic biodegradation of plastic mater ials in an aqueous system - Method by measurement of biogas production (ISO 14853:2016)

Contents

Page

European foreword ... **3**

Foreword ... **4**

Introduction ... **5**

1 Scope ... **6**

2 Normative references ... **6**

3 Terms and definitions ... **6**

4 Principle ... **8**

5 Reagents and materials ... **8**

6 Apparatus ... **10**
6.1 Laboratory equipment ... 10
6.2 Apparatus for use when biogas is measured by a manometric method ... 11
6.3 Apparatus for use when biogas is measured by a volumetric method ... 11

7 Procedure ... **11**
7.1 General ... 11
7.2 Digested sludge ... 11
7.3 Preparation of the inoculum ... 12
7.4 Preparation of test suspensions and controls ... 12
7.5 Incubation and gas measurement ... 13
7.6 Test duration ... 14
7.7 Measurement of inorganic carbon ... 14
7.8 Specific analyses ... 14

8 Calculation and expression of results ... **14**
8.1 Amount of carbon in headspace ... 14
8.2 Calculation of amount of carbon in headspace when manometric measurement method is used ... 15
8.3 Calculation of amount of carbon in headspace when volumetric measurement method is used ... 16
8.4 Amount of inorganic carbon in the liquid ... 16
8.5 Total amount of carbon converted to gas ... 16
8.6 Amount of carbon in test material ... 17
8.7 Calculation of percentage biodegradation ... 17

9 Validity of results ... **17**
9.1 Maintenance of anaerobic conditions ... 17
9.2 Inhibition of degradation ... 17
9.3 Validity of the test ... 17

10 Test report ... **18**

Annex A (informative) **Example of apparatus for determining the amount of biogas produced by measuring the increase in gas pressure** ... **19**

Annex B (informative) **Example of apparatus for determining volumetrically the amount of biogas produced** ... **20**

Annex C (informative) **Example of a biodegradation curve** ... **22**

Annex D (informative) **Examples of data sheets for anaerobic biodegradability tests** ... **23**

Annex E (informative) **Table of water vapour pressures at various temperatures** ... **26**

Annex F (informative) **Calculation of theoretical carbon dioxide ($ThCO_2$) and theoretical methane ($ThCH_4$) production** ... **27**

Annex G (informative) **Example of determination of recovery rate** ... **28**

Annex H (informative) **Example of a workflow scheme** ... **31**

Bibliography ... **32**
