| European foreword.....  | 4           |
| Foreword .....  | 5           |
| Introduction .....  | 6           |
| 1 Scope.....  | 7           |
| 2 Normative references.....   | 7           |
| 3 Terms and definitions .....   | 7           |
| 4 Principle .....   | 9           |
| 5 Test environment.....   | 10          |
| 6 Materials.....  | 10          |
| 7 Apparatus.....  | 10          |
| 8 Procedure.....  | 10          |
| 8.1 Preparation of the test material .....  | 10          |
| 8.2 Preparation of the reference material .....   | 11          |
| 8.3 Preparation of the test soil .....  | 11          |
| 8.3.1 Collection and sieving of soil.....   | 11          |
| 8.3.2 Preparation of standard soil .....  | 12          |
| 8.3.3 Measurement of soil characteristics .....   | 13          |
| 8.3.4 Adjustment of the water content and the pH of the soil.....                                 | 13          |
| 8.3.5 Handling and storage of the soil .....  | 13          |
| 8.4 Start-up and execution of the test .....  | 13          |
| 9 Calculation and expression of results.....  | 15          |
| 9.1 Calculation.....  | 15          |
| 9.1.1 Percentage biodegradation from oxygen consumption values.....                               | 15          |
| 9.1.2 Percentage biodegradation from carbon dioxide evolved.....                                  | 15          |
| 9.2 Expression and interpretation of results .....  | 16          |
| 10 Validity of results .....  | 16          |
| 11 Test report.....   | 16          |
| Annex A (informative) Principle of a manometric respirometer (example).....                       | 18          |
| Annex B (informative) Example of a system for measuring the amount of carbon dioxide evolved..... | 19          |
| Annex C (informative) Examples of methods for the determination of evolved carbon dioxide.....    | 20          |
| C.1 CO <sub>2</sub> determination by DIC measurement.....   | 20          |
| C.2 Titrimetric method using a barium hydroxide solution.....                                     | 20          |
| Annex D (informative) Theoretical oxygen demand (ThOD) .....                                      | 22          |
| D.1 Calculation of ThOD.....  | 22          |
| D.2 Example: poly-(R)-3-hydroxybutyrate [(R)-PHB] .....   | 22          |
| D.3 Example: blend of polyethylene/starch/glycerol .....  | 22          |

|   |           |
|---|-----------|
| <b>Annex E (informative) Example of a determination of the amount and the molecular mass of water-insoluble polymer remaining at the end of a biodegradation test .....</b> | <b>23</b> |
| <b>Annex F (informative) Examples of long-term tests .....</b>  | <b>24</b> |
| <b>F.1 Evolution of the biodegradation of cellulose, wheat gluten, flax fibres and broom fibres in soil .....</b>   | <b>24</b> |
| <b>F.2 Evolution of the biodegradation of cellulose, birch leaves, oak leaves and pine needles in soil .....</b>  | <b>25</b> |
| <b>F.3 Evolution of the biodegradation of cellulose and straw .....</b>   | <b>26</b> |
| <b>Annex G (informative) Interlaboratory test.....</b>  | <b>28</b> |
| <b>Bibliography .....</b>   | <b>32</b> |
