ISO 7823-3:2021 (E)

Plastics — Poly(methyl methacrylate) sheets — Types, dimensions and characteristics — Part 3: Continuous cast sheets

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Composition

5 General requirements

- 5.1 Protective coverings
- 5.2 Appearance
- 5.2.1 Surface defects
- 5.2.2 Inclusion defects
- 5.2.3 Classification of defects
- 5.2.4 Distribution of defects
- 5.3 Colour
- 5.4 Dimensions
- 5.4.1 Length and width
- 5.4.2 Thickness
- 5.4.3 Tolerances for other sheet sizes
- 5.4.4 Conditions of measurement
- 5.5 Basic and other properties
- 5.5.1 Basic properties
- 5.5.2 Other properties

6 Test methods

- 6.1 General
- 6.1.1 Sampling
- 6.1.2 Conditioning and testing atmospheres
- 6.1.3 Preparation of test specimens
- 6.1.4 Specimen thickness
- 6.2 Appearance
- 6.3 Colour
- 6.4 Dimensions
- 6.5 Mechanical properties
- 6.6 Thermal properties
- 6.7 Flammability
- 6.8 Optical properties
- 6.9 Other properties

7 Retest and rejection

Annex A (normative) Determination of dimensional change on heating (shrinkage)

- A.1 Specimens
- A.2 Heating procedure
- A.3 Cooling procedure
- A.4 Calculation
- A.5 Test report
