

# ISO 23517:2021-07 (E)

## Plastics - Soil biodegradable materials for mulch films for use in agriculture and horticulture - Requirements and test methods regarding biodegradation, ecotoxicity and control of constituents

---

<b>Contents</b>	<b>Page</b>
Foreword .....	iv
Introduction .....	v
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	2
4 Basic requirements .....	3
4.1 General .....	3
4.2 Control of constituents .....	3
4.3 Ultimate aerobic biodegradation .....	4
4.4 Negative effects on terrestrial organism .....	4
5 Detailed requirements .....	4
5.1 Control of constituents .....	4
5.1.1 Regulated metals and other elements .....	4
5.1.2 Organic and inorganic fluorine .....	4
5.1.3 Other hazardous substances .....	4
5.1.4 Volatile solids .....	4
5.2 Ultimate aerobic biodegradation .....	5
5.2.1 Test method and evaluation criteria .....	5
5.2.2 Requirements regarding constituents .....	5
5.3 Negative effects on terrestrial organism .....	6
5.3.1 Ecotoxicity testing scheme .....	6
5.3.2 Preparation of soils for ecotoxicity tests .....	6
5.3.3 Acute toxicity plant growth test .....	7
5.3.4 Earthworm test .....	7
5.3.5 Nitrification inhibition test with soil microorganisms .....	8
6 Test report .....	9
Annex A (informative) Examples of maximum concentrations of regulated metals and other elements .....	10
Annex B (normative) Maximum concentrations of organic and inorganic fluorine and other hazardous substances .....	11
Annex C (normative) Determination of acute effects of materials on the emergence and growth of higher plants .....	13
Annex D (normative) Determination of acute effects of materials on earthworms .....	15
Annex E (normative) Determination of effects on reproduction of earthworms .....	16
Annex F (normative) Determination of nitrification of soil microorganisms .....	17
Annex G (normative) Preparation of soils for ecotoxicity testing .....	18
Annex H (informative) Visual surface evaluation method of the disintegration in a slide frame test ..	20
Bibliography .....	24
