Recycled carbon fibre - Determination of tensile strength distribution and interfacial shear strength of single filament embedded in matrix polymer

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms, definitions and symbols	1
3.1	Terms and definitions	1
3.2	Symbols	1
4	Principle	2
5	Tensile test machine and specimen	2
5.1	Tensile test machine	2
5.2	Grip	2
5.3	Microscope	2
5.4	Test specimens	2
5.5	Number of tests	4
6	Testing technique	4
6.1	Test procedure	4
6.2	Validity of the test	6
7	Calculation of results	6
7.1	Summary of measurement data	6
7.2	Calculation of tensile strength distribution	7
7.3	Calculation of interfacial shear strength	8
7.4	Validity of the test result	8
8	Reporting of test results	9
