## Recycled carbon fibre - Determination of tensile strength distribution and interfacial shear strength of single filament embedded in matrix polymer

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms, definitions and symbols .....	1
3.1	Terms and definitions .....	1
3.2	Symbols .....	1
4	Principle .....	2
5	Tensile test machine and specimen .....	2
5.1	Tensile test machine .....	2
5.2	Grip .....	2
5.3	Microscope .....	2
5.4	Test specimens .....	2
5.5	Number of tests .....	4
6	Testing technique .....	4
6.1	Test procedure .....	4
6.2	Validity of the test .....	6
7	Calculation of results .....	6
7.1	Summary of measurement data .....	6
7.2	Calculation of tensile strength distribution .....	7
7.3	Calculation of interfacial shear strength .....	8
7.4	Validity of the test result .....	8
8	Reporting of test results .....	9
Bibliography .....		10
