DIN EN 12100:2025-05 (E)

Plastics piping systems - Polyethylene (PE) valves - Test method for resistance to bending between supports

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle 5

5 Apparatus 6
5.1 Static uniaxial testing machine 6
5.2 Torque measuring device 6
5.3 Compressed air supply 6
5.4 Pressure 6
5.5 Airtight piping systems 6

6 Test pieces 7
6.1 Sampling 7
6.2 Preparation 7
6.3 Number of test pieces 7

7 Arrangements 7

8 Test procedure 8

9 Test report 9
