

ISO 18280:2005-05 (E)

Plastics - Epoxy resins - Test methods

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Description of test methods	2
3.1	Physical properties	2
3.1.1	Determination of the melting range	2
3.1.2	Determination of density	3
3.1.3	Determination of refractive index	3
3.1.4	Determination of viscosity	3
3.1.5	Determination of tendency to crystallize	3
3.1.6	Determination of overall volume shrinkage	4
3.1.7	Determination of flash point	4
3.1.8	Estimation of colour	4
3.2	Chemical properties	5
3.2.1	Determination of epoxy equivalent	5
3.2.2	Determination of chlorine content	5
3.2.3	Determination of ash	6
3.2.4	Determination of primary, secondary and tertiary amine group nitrogen content in amine epoxy hardeners	6
3.2.5	Determination of free acid anhydride in hardeners and accelerators	7
3.2.6	Non-volatile-matter content	7
