

ISO 19212:2006-08 (E)

Adhesives - Determination of temperature dependence of shear strength

Contents	Page
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Methods of test for shear strength	2
4.1 Test method for metals	2
4.2 Test method for wood	2
5 Test atmosphere	2
6 Sampling and handling of adhesives	2
7 Kinds of adhesive and surface preparation of adherends	2
8 Preparation of test specimens	2
8.1 Metal adherends	2
8.2 Wood adherends	2
9 Procedure	2
10 Expression of results	3
10.1 Plot of shear strength versus temperature	3
10.2 Failure patterns	3
11 Test report	3
Annex A (informative) Practical information on the test method	5
Bibliography	7
