

DIN EN 15346:2008-02 (E)

Plastics - Recycled Plastics - Characterisation of poly(vinyl chloride) (PVC) recyclates

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms, definitions and abbreviated terms	6
4 Characterisation of PVC recyclates	6
5 Quality Assurance	9
Annex B	11
tetrahydrofuran	14
compounds by sieving	16
Bibliography	25
Annex C (normative) Impurities contained in recycled PVC compounds by dissolution in Annex D (normative) Size and distribution of particles contained in micronized recycled PVC Annex G (normative) Fitness for processing of PVC recyclates by extrusion	24
Annex E (normative) Size and distribution of recycled PVC crushes by sieving	19
Annex F (normative) Fitness for processing of PVC recyclates by calendering	22
Annex A (informative) Typical compositions of PVC compounds	10
