## Mechanical refrigerating systems used for cooling and heating; safety requirements

<b>Contents</b>	<b>Page</b>
<b>Section 1 General</b> .....	<b>1</b>
1.1 Scope .....	1
1.2 Normative references .....	1
1.3 Definitions .....	1
<b>Section 2 Classification</b> .....	<b>5</b>
2.1 Occupancies .....	5
2.2 Refrigerating systems .....	5
2.3 Refrigerants .....	7
<b>Section 3 Design and construction of equipment</b> .....	<b>10</b>
3.1 Pressure requirements .....	10
3.2 Materials .....	10
3.3 Pressure vessels .....	11
3.4 Refrigerant piping, valves and fittings .....	12
3.5 Other refrigerant-containing components .....	14
3.6 Indicating and measuring instruments .....	14
3.7 Protection against excessive pressure .....	14
3.8 Electrical installations .....	22
<b>Section 4 Requirements for utilization</b> .....	<b>24</b>
4.1 Machinery rooms .....	24
4.2 Miscellaneous special precautions .....	25
4.3 Use of cooling or heating systems and refrigerants in relation to occupancy .....	26
<b>Section 5 Operating procedures</b> .....	<b>30</b>
5.1 Instruction, operation and maintenance .....	30
5.2 Protective equipment .....	31
<b>Annexes</b>	
<b>A Physical properties of refrigerants</b> .....	<b>32</b>
<b>B Safety of personnel in cold rooms</b> .....	<b>33</b>
<b>C Bibliography</b> .....	<b>34</b>
