| <b>8</b>               | <b>Test report.....</b>   | <b>38</b>   |

|   |  |           |
|---|--|-----------|
| 8.1   | General information .....  | 38        |
| 8.2   | Additional information.....  | 38        |
| 8.3   | Rating test results.....   | 38        |
| <b>Annex A (normative) Calorimeter test method .....</b>  |  | <b>40</b> |
| A.1   | General .....  | 40        |
| A.2   | Calibrated room-type calorimeter .....   | 42        |
| A.3   | Balanced ambient room-type calorimeter .....   | 43        |
| A.4   | Calculations-cooling capacities .....  | 43        |
| A.4.1   | General .....  | 43        |
| A.4.2   | Total cooling capacity on the indoor-side .....  | 44        |
| A.4.3   | Total cooling capacity of liquid (water)-cooled equipment deducted from the<br>condenser side..... | 45        |
| A.4.4   | Latent cooling capacity (room dehumidifying capacity).....   | 45        |
| A.4.5   | Sensible cooling capacity .....  | 45        |
| A.4.6   | Sensible heat ratio.....   | 45        |
| A.5   | Calculation-heating capacities.....  | 46        |
| A.5.1   | General .....  | 46        |
| A.5.2   | Determination of the heating capacity by measurements in the indoor-side room .....                | 46        |
| A.5.3   | Determination of the heating capacity by measurements in the outdoor-side room .....               | 46        |
| A.5.4   | Total heating capacity of liquid (water)-to-air unit deducted from the water side .....            | 47        |
| <b>Annex B (normative) Indoor air enthalpy method .....</b>   |  | <b>48</b> |
| B.1   | General .....  | 48        |
| B.2   | Test installation .....  | 48        |
| B.2.1   | General .....  | 48        |
| B.2.2   | Air outlet section.....  | 49        |
| B.2.3   | Air inlet section .....  | 49        |
| B.2.4   | Discharge chamber design for non-ducted units .....  | 49        |
| B.2.5   | Duct requirements for ducted units .....   | 54        |
| B.2.5.1   | Air outlet duct .....  | 54        |
| B.2.5.2   | Air inlet duct.....  | 55        |
| B.3   | Calculations-cooling capacities .....  | 55        |
| B.4   | Calculations-heating capacities.....   | 56        |
| <b>Annex C (informative) Recommendations for reducing the indoor air enthalpy method<br/>uncertainty.....</b> |  | <b>57</b> |
| C.1   | General .....  | 57        |
| C.2   | Uncertainty of measurement.....  | 57        |
| C.2.1   | General .....  | 57        |
| C.2.2   | Guidance on temperature measurement.....   | 57        |

|   |  |           |
|---|--|-----------|
| C.3   | Air leakage tests .....                                  | 62        |
| C.4   | Zero latent capacity confirmation.....                   | 64        |
| C.5   | Thermal losses from ducts, chambers and plenums .....    | 64        |
| <b>Annex D (normative) Liquid enthalpy test method .....</b>  |  | <b>65</b> |
| D.1   | General.....   | 65        |
| D.2   | Calculations-heating capacities .....                    | 65        |
| D.3   | Calculations-cooling capacities.....                     | 65        |
| <b>Annex E (informative) Test installation and measurements for the liquid enthalpy method .....</b>                            |  | <b>66</b> |
| E.1   | General.....   | 66        |
| E.2   | Connecting the unit .....                                | 66        |
| E.3   | Liquid temperature measuring points .....                | 66        |
| E.4   | Pressure measuring points.....                           | 68        |
| E.5   | Liquid flow rate measurement.....                        | 69        |
| <b>Annex F (normative) Determination of the liquid pump efficiency.....</b>   |  | <b>70</b> |
| F.1   | General.....   | 70        |
| F.2   | Hydraulic power of the liquid pump .....                 | 70        |
| F.2.1   | The liquid pump is an integral part of the unit .....    | 70        |
| F.2.2   | The liquid pump is not an integral part of the unit..... | 70        |
| F.3   | Efficiency of integrated pumps.....                      | 70        |
| F.3.1   | Glandless circulators .....                              | 70        |
| F.3.2   | Dry motor pumps .....                                    | 71        |
| F.4   | Efficiency of non-integrated pumps .....                 | 73        |
| <b>Annex G (informative) Rating of indoor and outdoor units of multisplit and modular heat recovery multisplit systems.....</b> |  | <b>74</b> |
| G.1   | General.....   | 74        |
| G.2   | Terms and definitions .....                              | 74        |
| G.3   | Rating of indoor units.....                              | 75        |
| G.3.1   | General.....   | 75        |
| G.3.2   | Air flow rate measurement.....                           | 75        |
| G.3.3   | Measurement of the power input of indoor units .....     | 75        |
| G.4   | Rating of outdoor units .....                            | 75        |
| G.4.1   | General.....   | 75        |
| G.4.2   | Test procedure.....                                      | 75        |
| <b>Annex H (informative) Symbols used in annexes .....</b>  |  | <b>77</b> |
| <b>Annex I (normative) Air flow rate measurement .....</b>  |  | <b>79</b> |
| I.1   | General.....   | 79        |
| I.2   | Test installation.....                                   | 79        |
| I.3   | Test conditions.....                                     | 79        |
| I.4   | Air flow measurement.....                                | 79        |

|   |           |
