DIN EN 12102-1:2023-11 (E)

Air conditioners, liquid chilling packages, heat pumps, process chillers and dehumidifiers with electrically driven compressors - Determination of the sound power level - Part 1: Air conditioners, liquid chilling packages, heat pumps for space heating and cooling, dehumidifiers and process chillers

European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms, definitions and symbols 7
3.1 Terms and definitions 8
3.2 Symbols, subscripts and units 9
3.2.1 General 9
3.2.2 Non ducted units 9
3.2.3 Ducted units 9

4 General approach 10

5 Measuring instruments 11

6 Operation of the unit 12

7 Installation of the unit 14
7.1 General 14
7.2 Ducted units 14
7.2.1 Installation 14
7.2.2 Duct end correction 15
7.2.3 Bend correction 16
7.2.4 Pressure and airflow measurements 16
7.2.5 Casing radiated test 17
7.3 Wall mounted units 17
7.4 Ceiling mounted units 17
7.5 Window-type units 17
7.6 Multisplit systems 17
7.7 Single duct units 18
7.7.1 Noise radiated by the casing 18
7.7.2 Noise from duct outlet 18

8 Acoustic measurement methods 19
8.1 Frequency range 19
8.2 Method selection 19
8.2.1 General 19
8.2.2 Target of measurement 19
8.3 Diffuse field methods 20
8.3.1 General 20
8.3.2 Non ducted units 20
8.3.3 Ducted units 20
8.4 Installation of the free field over a reflecting plane method 21
8.4.1 General 21

8.4.2 Reference surface 21
8.4.3 Measuring surface 21

9 Uncertainty of measurement results 23

10 Test report 24
10.1 General 24
10.2 Unit specification 24
10.3 Operating conditions, installation and environmental conditions 24
10.4 Measurement instruments 24
10.5 Measured values and results 24

Annex A (normative) Specific measurement for staged or variable capacity units 26

A.1 General requirements 26
A.2 Test mode 26
A.3 Measurements process for variable capacity units 26
A.4 Additional requirements applying to Ecodesign and Energy labelling regulations 26
A.4.1 Test conditions 26
A.4.2 Variable capacity units 26
A.4.3 Staged capacity units 27

Annex B (informative) Typical configurations of air conditioners and heat pumps 28

B.1 General 28
B.2 Air-to-air units 28
B.3 Air-to-water(brine) units 30
B.4 Water(brine)-to-water(brine) units 31
B.5 Water(brine)-to-air units 31

Annex C (normative) Sound power lever of indoor units of water-to-air and air-to-air multisplit heat pumps and air conditioners 33

C.1 General 33
C.2 Operation of the indoor unit 33
C.3 Configurations and measurements 34
C.3.1 Non ducted indoor units 34
C.3.2 Ducted indoor units 34

Annex ZA (informative) Relationship between this European Standard and the ecodesign requirements of Commission Regulation (EU) No 206/2012 aimed to be covered 35

Annex ZB (informative) Relationship between this European Standard and the energy labelling requirements of Commission Delegated Regulation (EU) No 626/2011 aimed to be covered 36

Annex ZC (informative) Relationship between this European Standard and the ecodesign requirements of Commission Regulation (EU) No 813/2013 aimed to be covered 37

Annex ZD (informative) Relationship between this European Standard and the energy labelling requirements of Commission Delegated Regulation (EU) No 811/2013 aimed to be covered 38

Annex ZE (informative) Relationship between this European Standard and the ecodesign requirements of Commission Regulation (EU) 2016/2281 aimed to be covered 39
