DIN EN 13032-3:2022-01 (E)

Light and lighting - Measurement and presentation of photometric data of lamps and luminaires - Part 3: Presentation of data for emergency lighting of workplaces

Contents

Page

European foreword ... **3**

Introduction ... **4**

1 Scope ... **5**

2 Normative references ... **5**

3 Terms and definitions ... **5**

4 Light source data ... **6**

5 Luminaire data ... **7**

5.1 Essential luminaire data ... 7

5.1.1 General ... 7

5.1.2 Luminaire type reference ... 7

5.1.3 Relevant data ... 7

5.1.4 Luminous intensity table ... 7

5.1.5 Luminaire maintenance factor (F_{LM}) ... 8

5.1.6 Luminaire survival factors (F_{LS}) ... 8

5.1.7 Luminaire service correction factor (F_{LSC}) ... 8

5.2 Useful luminaire data ... 9

5.2.1 Physical dimensions of the luminaire ... 9

5.2.2 Intensity diagram ... 9

5.2.3 Spacing tables ... 9

5.2.4 Other relevant data ... 9

Annex A (informative) **Illuminance calculation on a horizontal plane from a point source** ... **10**

Bibliography ... **11**
