

DIN EN 13032-3:2007-12 (E)

Light and lighting - Measurement and presentation of photometric data of lamps and luminaires - Part 3: Presentation of data for emergency lighting of work places

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 Essential lamp data	6
5 Luminaire data	7
5.1 Essential luminaire data	7
5.1.1 Luminaire code	7
5.1.2 Normalized intensity table	7
5.1.3 Luminaire maintenance factors (LMF)	8
5.1.4 Luminaire service correction factors (LSCF)- all data shall be declared	8
5.2 Useful luminaire data	8
5.2.1 Physical dimensions of the luminaire	8
5.2.2 Intensity diagram	8
5.2.3 Spacing tables	8
Annex A (informative) Illuminance calculation on a horizontal plane from a point source	9
Bibliography	10
