ISO/TR 20461:2000-11 (E)

Determination of uncertainty for volume measurements made using the gravimetric method

Contents

Page

Foreword iv

1 Scope 1

2 Modelling the measurement 1

3 Standard uncertainty of measurement associated with the volume V20 4

4 Sensitivity coefficients 4

5 Standard uncertainty associated with the volume delivered by a piston-operated volumetric apparatus 6

6 Standard uncertainties of measurement 7

7 Expanded uncertainty of measurement associated with volume V20 7

8 Example for determining the uncertainty of the measurement 7
