| <b>Foreword</b>                            | ..... | <b>5</b>    |
| <b>Introduction</b>                        | ..... | <b>6</b>    |
| <b>1 Scope</b>                             | ..... | <b>7</b>    |
| <b>2 Normative references</b>              | ..... | <b>7</b>    |
| <b>3 Terms and definitions</b>             | ..... | <b>7</b>    |
| <b>4 Characteristics of abrasion tests</b> | ..... | <b>8</b>    |
| 4.1 General                                | ..... | 8           |
| 4.2 Abrasive-wheel-wear test               | ..... | 8           |
| 4.3 Abrasive jet test                      | ..... | 8           |
| 4.4 Falling sand abrasion test             | ..... | 8           |
| <b>5 Abrasive-wheel-wear test</b>          | ..... | <b>8</b>    |
| 5.1 Principle                              | ..... | 8           |
| 5.2 Apparatus                              | ..... | 9           |
| 5.2.1 Abrasive-wheel-wear test apparatus   | ..... | 9           |
| 5.2.2 Abrasive strip                       | ..... | 9           |
| 5.2.3 Eddy-current meter                   | ..... | 9           |
| 5.2.4 Balance                              | ..... | 9           |
| 5.3 Procedure                              | ..... | 9           |
| 5.3.1 Standard specimen                    | ..... | 9           |
| 5.3.2 Test specimen                        | ..... | 10          |
| 5.3.3 Test procedure                       | ..... | 10          |
| 5.4 Expression of results                  | ..... | 11          |
| 5.4.1 General                              | ..... | 11          |
| 5.4.2 Wear resistance                      | ..... | 11          |
| 5.4.3 Mass wear resistance                 | ..... | 11          |
| 5.4.4 Wear index                           | ..... | 11          |
| 5.4.5 Mass wear index                      | ..... | 12          |
| <b>6 Abrasive jet test</b>                 | ..... | <b>12</b>   |
| 6.1 Principle                              | ..... | 12          |
| 6.2 Apparatus                              | ..... | 12          |
| 6.2.1 Abrasive jet test apparatus          | ..... | 12          |
| 6.2.2 Abrading medium                      | ..... | 13          |
| 6.2.3 Eddy-current meter                   | ..... | 13          |
| 6.2.4 Balance                              | ..... | 13          |
| 6.3 Procedure                              | ..... | 13          |
| 6.3.1 Standard specimen                    | ..... | 13          |
| 6.3.2 Test specimen                        | ..... | 13          |
| 6.3.3 Calibration of apparatus             | ..... | 14          |
| 6.3.4 Calibration of jet nozzle            | ..... | 14          |
| 6.3.5 Determination                        | ..... | 15          |
| 6.3.6 Use of a reference specimen          | ..... | 15          |

|          |   |           |
