

ISO 22450:2020 (E)

Recycling of rare earth elements — Requirements for providing information on industrial waste and end-of-life products

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Forms of REEs in industrial waste and EOL products
4.1	General
4.2	In REE magnets
4.3	In LEDs
4.4	In NiMH batteries
4.5	In catalysts
4.6	Other REE waste products
5	Classification and codes
6	Recycling information
Annex A	(informative) Forms for information exchange
A.1	Recycling form for REE magnets
A.2	Recycling form for LED phosphors
A.3	Recycling form for NiMH batteries
A.4	Recycling form for polishing agents
A.5	Recycling form for catalysts
A.6	Recycling form for laser crystals
A.7	Recycling form for other REE waste products
