|--------------------------------------------------------------|----------------------------------------------------------------------------------|-------------|
| Foreword .....                                               |                                                                                  | iv          |
| Introduction .....                                           |                                                                                  | v           |
| 1                                                            | Scope .....                                                                      | 1           |
| 2                                                            | Normative references .....                                                       | 1           |
| 3                                                            | Terms and definitions .....                                                      | 1           |
| 4                                                            | Principle .....                                                                  | 3           |
| 5                                                            | Reagent .....                                                                    | 4           |
| 6                                                            | Apparatus .....                                                                  | 4           |
| 6.1                                                          | Volumetric glassware .....                                                       | 4           |
| 6.2                                                          | Inductively coupled plasma atomic emission spectrometer .....                    | 4           |
| 6.2.1                                                        | General .....                                                                    | 4           |
| 6.2.2                                                        | Line spectra selection .....                                                     | 4           |
| 7                                                            | Procedure .....                                                                  | 5           |
| 7.1                                                          | Weighing the test portion .....                                                  | 5           |
| 7.2                                                          | Sample preparation .....                                                         | 6           |
| 7.3                                                          | Preparation of calibration solutions .....                                       | 6           |
| 7.4                                                          | Measurements .....                                                               | 7           |
| 7.4.1                                                        | Instrument set-up .....                                                          | 7           |
| 7.4.2                                                        | Measurement of the calibration solution and calibration curve construction ..... | 7           |
| 7.4.3                                                        | Measurement of the test solution .....                                           | 7           |
| 8                                                            | Calculation and expression of results .....                                      | 7           |
| 8.1                                                          | Method of calculation .....                                                      | 7           |
| 8.2                                                          | Precision .....                                                                  | 8           |
| 8.2.1                                                        | Interlaboratory test .....                                                       | 8           |
| 8.2.2                                                        | Statistical analysis .....                                                       | 8           |
| 9                                                            | Test report .....                                                                | 8           |
| Annex A (informative) Interlaboratory test results .....     |                                                                                  | 9           |
| Annex B (informative) Regression formulae of precision ..... |                                                                                  | 10          |
| Bibliography .....                                           |                                                                                  | 11          |
