DIN EN 15566:2011-02 (E)

Railway applications - Railway rolling stock - Draw gear and screw coupling (includes Amendment A1:2010)

Contents

Page

Foreword 5

Introduction 6

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Requirements for all types of draw gear and screw coupling 9
4.1 Classification and designation 9
4.2 Interaction coupling/buffer 9
4.3 Interface dimension for freight wagons 9
4.4 Life time 10

5 Draw gear 11
5.1 Draw gear components 11
5.2 Draw hook and drawbar – Requirements 12

6 Screw coupling 12
6.1 General requirements 12
6.2 Screw coupling components 15
6.3 Screw coupling - Requirements 16

7 Elastic device 16
7.1 Characteristics of elastic device 16
7.2 Elastic device – Requirements 16

Annex A (normative) **Draw hook - dimensions** 17

Annex B (normative) **Draw gear – Interface dimension** 18

Annex C (normative) **Screw coupling components - dimensions** 19

Annex D (normative) **Draw hook and drawbar - Requirements** 24
D.1 Physical characteristics 24
D.1.1 Appearance 24
D.1.2 Soundness 24
D.2 Geometrical characteristics 24
D.3 Mechanical characteristics 24
D.3.1 Tensile test on test piece 24
D.3.2 Resilience 25
D.3.3 Hardness 25
D.3.4 Tensile test on draw hook and draw bar 25
D.4 Marking 25
D.5 Manufacture 26
D.5.1 General 26
D.5.2 Forging and die-forging 26
D.5.3 Machining 26
D.5.4 Heat treatment 26
D.5.5 Rectification of defects, if any 26
D.6 Acceptance 27
D.6.1 General 27
D.6.2 Manufacturing control 27
D.6.3 Inspection of the hooks 27
D.6.4 Inspection of draw bars 33
D.6.5 Conclusion of the inspections 34

D.7 Delivery **35**
D.7.1 Protection against oxidation **35**
D.7.2 Packaging **35**

Annex E (normative) **Screw coupling and component parts - Requirements** **36**
E.1 Material **36**
E.2 Physical characteristics **36**
E.2.1 Appearance **36**
E.2.2 Soundness **36**
E.2.3 Additional requirements for screw couplings **36**
E.3 Geometrical characteristics **37**
E.3.1 General **37**
E.3.2 Dimensions limited either by 2 unmachined or rough-machined surfaces or by one unmachined or rough-machined surface **37**
E.3.3 Dimensions limited by two machined surfaces **37**
E.4 Mechanical characteristics **37**
E.4.1 Heat treatment **37**
E.4.2 Hardness **38**
E.4.3 Fracture test on link (tensile test on finished part) **38**
E.4.4 Resilience **38**
E.4.5 Requirements for screw coupling **38**
E.5 Marking **40**
E.6 Manufacture **42**
E.6.1 General **42**
E.6.2 Preparation of the materials **42**
E.6.3 Manufacture of the component parts **42**
E.7 Acceptance **44**
E.7.1 General **44**
E.7.2 Inspection of the manufacture **44**
E.8 Inspection of the materials, component parts and screw couplings **44**
E.8.1 General **44**
E.8.2 Submission for acceptance **44**
E.8.3 Grouping into batches **45**
E.8.4 Advice of submission for acceptance **45**
E.8.5 Nature and proportion of the tests **46**
E.8.6 Sampling and preparation of the samples and test pieces **47**
E.8.7 Carrying out of the checks and tests **50**
E.9 Completion of inspections **52**
E.10 Delivery **52**
E.10.1 Protection against oxidation **52**
E.10.2 Packing **52**

Annex F (normative) **Elastic device - Requirements** **53**
F.1 Rubber elastomer or other elastomer elastic device **53**
F.1.1 General **53**
F.1.2 Metal inserts requirements **53**
F.1.3 Elastomer requirements **53**
F.1.4 Static test **55**
F.1.5 Endurance test **55**
F.1.6 Bonding **57**
F.1.7 Inspection and Tests **58**
F.1.8 Markings **58**
F.2 Friction spring/Ring spring **59**
F.2.1 Manufacturer's marks **59**
F.2.2 Flexibility test **59**
F.2.3 Endurance test **60**

Annex G (normative) **Additional tests on semi-finished products** **61**
G.1 Scope and field of application **61**
G.2 Macrographic examination **61**
G.2.1 General **61**

G.2.2 Proposed test-pieces 61
G.2.3 Test results 61
G.3 Ultrasonic inspection 61
G.3.1 General 61
G.3.2 Test proportion 62
G.3.3 Test results 62

Annex ZA (informative) **A1 Relationship between this European Standard and the Essential Requirements of EU Directive 2008/57/EC of the European Parliament and of the Council of 17 June 2008 on the interoperability of the rail system within the Community (Recast) A1 ..... 63**
