## Safety for conveyor belts for winter sport or leisure use

---

| <b>Contents</b>                                                                                                           |  | <b>Page</b> |
|---------------------------------------------------------------------------------------------------------------------------|--|-------------|
| Foreword .....                                                                                                            |  | 4           |
| Introduction .....                                                                                                        |  | 5           |
| 1 Scope .....                                                                                                             |  | 6           |
| 2 Normative references .....                                                                                              |  | 6           |
| 3 Terms and definitions .....                                                                                             |  | 7           |
| 4 List of significant hazards .....                                                                                       |  | 8           |
| 4.1 General safety principles .....                                                                                       |  | 8           |
| 4.2 List of significant risks .....                                                                                       |  | 8           |
| 4.2.1 Mechanical risks .....                                                                                              |  | 8           |
| 4.2.2 Electrical risks .....                                                                                              |  | 8           |
| 4.2.3 Thermal risks .....                                                                                                 |  | 9           |
| 4.3 List of hazardous situations or danger factors .....                                                                  |  | 9           |
| 5 Safety requirements and/or protective measures .....                                                                    |  | 10          |
| 5.1 General .....                                                                                                         |  | 10          |
| 5.2 Adaptation of the travelator to the terrain .....                                                                     |  | 10          |
| 5.2.1 Installation of the travelator .....                                                                                |  | 10          |
| 5.2.2 Layout .....                                                                                                        |  | 10          |
| 5.2.3 Longitudinal profile .....                                                                                          |  | 10          |
| 5.2.4 Cross-section .....                                                                                                 |  | 13          |
| 5.2.5 Belt speed .....                                                                                                    |  | 15          |
| 5.3 Design requirements relating to the belt and its accessories .....                                                    |  | 16          |
| 5.3.1 Belt .....                                                                                                          |  | 16          |
| 5.3.2 Guides .....                                                                                                        |  | 16          |
| 5.3.3 Covering .....                                                                                                      |  | 16          |
| 5.3.4 Elimination of risk of injury .....                                                                                 |  | 17          |
| 5.3.5 Safety flap .....                                                                                                   |  | 17          |
| 5.3.6 Drum or wheel at the unloading station .....                                                                        |  | 17          |
| 5.4 Drive and start-up of the travelator .....                                                                            |  | 17          |
| 5.4.1 General .....                                                                                                       |  | 17          |
| 5.4.2 Drive .....                                                                                                         |  | 18          |
| 5.4.3 Start-up .....                                                                                                      |  | 18          |
| 5.5 Operating safety requirements .....                                                                                   |  | 18          |
| 5.5.1 Operating safety principles .....                                                                                   |  | 18          |
| 5.5.2 Travelator stops .....                                                                                              |  | 20          |
| 5.5.3 Safety devices and functions .....                                                                                  |  | 21          |
| 5.5.4 Monitoring of the belt re-entry angle at the unloading point .....                                                  |  | 23          |
| 5.5.5 Necessary conditions for automatic re-starting after a stop .....                                                   |  | 26          |
| 5.5.6 Device for checking the correct position of the emergency flap .....                                                |  | 27          |
| 5.5.7 Device for checking for belt rupture .....                                                                          |  | 27          |
| 5.5.8 Device for checking the correct position of the non-return device .....                                             |  | 27          |
| 5.5.9 Device for checking the correct position of the brakes .....                                                        |  | 27          |
| 5.5.10 Travelator on which passengers or third parties may not cross the belt re-entry point at the unloading point ..... |  | 27          |
| 5.6 Control elements .....                                                                                                |  | 28          |
| 5.6.1 Controls .....                                                                                                      |  | 28          |
| 5.6.2 Secondary control panel .....                                                                                       |  | 29          |

|                                                                                                                                              |                                                                                    |    |
|----------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|----|
| 5.6.3                                                                                                                                        | Resetting .....                                                                    | 29 |
| 5.6.4                                                                                                                                        | Alarm .....                                                                        | 29 |
| 5.7                                                                                                                                          | Protection of property and people .....                                            | 29 |
| 5.7.1                                                                                                                                        | Safety of personnel and passengers .....                                           | 29 |
| 5.7.2                                                                                                                                        | Protection of the installations .....                                              | 29 |
| 5.7.3                                                                                                                                        | Main switch .....                                                                  | 30 |
| 5.7.4                                                                                                                                        | Locking the installation .....                                                     | 30 |
| 5.7.5                                                                                                                                        | Protection against electrical currents and atmospheric electrical discharges ..... | 30 |
| 5.8                                                                                                                                          | Calculations and justifications .....                                              | 30 |
| 5.8.1                                                                                                                                        | Calculations .....                                                                 | 30 |
| 5.8.2                                                                                                                                        | Justification of materials .....                                                   | 31 |
| 6                                                                                                                                            | Verification of the safety requirements and/or protective measures .....           | 32 |
