

DIN EN 13146-2:2012-06 (E)

Railway applications - Track - Test methods for fastening systems - Part 2: Determination of torsional resistance

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Principle	4
5	Apparatus	4
5.1	Rail	4
5.2	Actuator	4
5.3	Displacement measuring instruments	5
5.4	Force measuring instruments	5
5.5	Verification of calibration	5
6	Test specimens	5
6.1	Rail support	5
6.2	Fastening	5
7	Procedure	6
7.1	Preparation for test	6
7.2	Loading and measurement with fastenings in line	6
7.3	Loading and measurement when fastenings offset	6
7.4	Moment of load-displacement graph	7
8	Test report	7
Annex A (informative)	Moment of load-displacement graph	8
