

# DIN EN 13146-2:2012-06 (E)

## Railway applications - Track - Test methods for fastening systems - Part 2: Determination of torsional resistance

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
1	Scope .....	4
2	Normative references .....	4
3	Terms and definitions .....	4
4	Principle .....	4
5	Apparatus .....	4
5.1	Rail .....	4
5.2	Actuator .....	4
5.3	Displacement measuring instruments .....	5
5.4	Force measuring instruments .....	5
5.5	Verification of calibration .....	5
6	Test specimens .....	5
6.1	Rail support .....	5
6.2	Fastening .....	5
7	Procedure .....	6
7.1	Preparation for test .....	6
7.2	Loading and measurement with fastenings in line .....	6
7.3	Loading and measurement when fastenings offset .....	6
7.4	Moment of load-displacement graph .....	7
8	Test report .....	7
Annex A (informative)	Moment of load-displacement graph .....	8
