

DIN EN 13146-3:2012-06 (E)

Railway applications - Track - Test methods for fastening systems - Part 3: Determination of attenuation of impact loads

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions, symbols and abbreviations	4
3.1	Terms and definitions	4
3.2	Symbols and abbreviations	4
4	Principle	5
5	Apparatus	5
5.1	Concrete sleeper or bearer	5
5.2	Support	5
5.2.1	Reference method	5
5.2.2	Alternative method	6
5.3	Rail	6
5.4	Strain measuring and recording equipment	6
5.5	Drop mass	6
5.6	Preloading equipment	7
6	Test specimens	7
6.1	Concrete sleeper or bearer	7
6.2	Fastening	7
7	Procedure - Reference method	8
7.1	Preparation	8
7.2	Testing	8
7.3	Check on sleeper condition	8
7.4	Calculation	8
8	Procedure - Alternative method	9
8.1	Preparation	9
8.2	Testing and checking	9
8.3	Calculation	9
9	Test report	9
Annex A (informative)	Sample calculation	11
