|--|---|-------------|
| Foreword .....   |   | 3           |
| Introduction .....   |   | 4           |
| 1  | Scope .....   | 5           |
| 2  | Normative references .....                                  | 5           |
| 3  | Terms and definitions .....                                 | 6           |
| 4  | Symbols .....   | 6           |
| 5  | Requirements .....  | 7           |
| 5.1  | Longitudinal rail restraint .....                           | 7           |
| 5.2  | Torsional resistance .....                                  | 8           |
| 5.3  | Pad and assembly stiffness .....                            | 8           |
| 5.4  | Effect of repeated loading .....                            | 8           |
| 5.5  | Electrical resistance .....                                 | 9           |
| 5.6  | Effect of exposure to severe environmental conditions ..... | 9           |
| 5.7  | Dimensions .....  | 10          |
| 5.8  | Effect of fastening system tolerances on track gauge .....  | 10          |
| 5.9  | Clamping force .....  | 11          |
| 5.10   | In-service testing .....                                    | 11          |
| 5.11   | Attenuation of noise and vibration .....                    | 11          |
| 6  | Test specimens .....  | 11          |
| 7  | Fitness for purpose .....                                   | 11          |
| 8  | Marking, labelling and packaging .....                      | 11          |
| Annex A (normative) Effect of repeated loading - Steel sleeper configuration ..... |   | 12          |
| A.1  | Symbols .....   | 12          |
| A.2  | Test arrangement .....                                      | 12          |
| A.3  | Test report .....   | 13          |
| Annex B (informative) Vibration and noise .....                                    |   | 14          |
| B.1  | General .....   | 14          |
| B.2  | Symbols .....   | 14          |
| B.3  | Parameters for environmental vibration calculations .....   | 14          |
| B.4  | Calculating the vibration attenuation .....                 | 15          |
| B.5  | Environmental noise .....                                   | 15          |
| Bibliography .....   |   | 16          |
