DIN EN 13231-4:2013-06 (E)

Railway applications - Track - Acceptance of works - Part 4: Acceptance of reprofiling rails in switches and crossings

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Longitudinal profile 4
4.1 Principle 4
4.2 Measurements required 5
4.3 Acceptance criteria for longitudinal profile 5
4.3.1 General 5
4.3.2 Peak-to-peak value 5

5 Transverse profile 6
5.1 Principle 6
5.2 Areas in crossings which are limited for reprofiling 6
5.3 Measurements required 6
5.4 Acceptance criteria for the transverse profile 6

6 Material removal 7

7 Surface roughness 7

8 Visual appearance: acceptance criteria 7

9 Acceptance documentation 7
