Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Instrumentation and calibration 13
4.1 Instrumentation 13
4.2 Calibration 13

5 Measurement setup 13

6 Test procedure 16
6.1 General 16
6.2 Generation of sound field 16
6.3 Sound pressure level in the source room 17
6.4 Measurement of average sound intensity level on the measurement surface 17
6.4.1 General 17
6.4.2 Measurement surface 18
6.4.3 Qualification of the measurement surface 18
6.4.4 Scanning procedure 19
6.4.5 Procedure using discrete positions 19
6.4.6 Scanning procedure for one measurement area 19
6.4.7 Scanning procedure for several measurement subareas 20
6.5 Background noise 20
6.6 Frequency range of measurements 20

7 Presentation of results 20

8 Quality of the measurements 21
8.1 Deviations from the requirements 21
8.2 Measurement tolerances 21
8.3 Measurement uncertainties 21

9 Test report 21

Annex A (normative) Method to qualify the sound field on the surface of the test specimen in the source room 23
