European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Symbols and abbreviations 6

5 Requirements on the test execution 7
5.1 Test specification 7
5.2 Documentation 8
5.3 Test conditions 8
5.3.1 Test bench and test equipment 8
5.3.2 Weather conditions 8
5.3.3 Energy supply 8
5.3.4 Load conditions 9
5.4 Test report 9

6 Tests 9
6.1 Check of the brake equipment 9
6.2 Test of tightness of pneumatic system 11
6.2.1 Tightness when the brake is isolated 11
6.2.2 Tightness when the brake is in service and released 11
6.2.3 Tightness in emergency braking 11
6.3 Tests of the pneumatic brake 12
6.3.1 Build up and release times and maximum brake cylinder pressures 12
6.3.2 Brake cylinder pressure during full service brake application 13
6.3.3 Graduable application and release 13
6.3.4 Manual release valve 13
6.3.5 Test of self-adjusting load-proportional brake system 14
6.4 Test of brake indicators 14
6.5 Test of EP assist 14
6.5.1 Test of the pneumatic part of EP assist 14
6.5.2 Test of the electric part of EP assist 15
6.6 Test of passenger alarm system (PAS) 15
6.6.1 Test of venting capacity 15
6.6.2 Test of reactions on PAS signals 15
6.7 Test of the magnetic track brake (MTB) 16
6.7.1 Vehicle implementation test 16
6.7.2 Functional test 16
6.8 Test of parking brake 17
6.9 Evaluation of brake performance 17
6.10 Tests of WSP 17
6.11 Test of thermal capacity 18
6.11.1 General 18
6.11.2 Stopping braking 18
6.11.3 Drag braking 18
6.12 Additional tests for driving trailers 19
6.12.1 Tests of brake pipe pressure control system (driver's brake valve) 19
6.12.2 Test of sanding device 22

6.12.3 Test of EP assist control system 22
6.12.4 Test of passenger alarm control system 22
6.12.5 Tests of emergency brake devices 23
6.12.6 Check of pressure indicators on driver's desk 24
6.12.7 Test of direct brake 24
6.12.8 Test of co-operation between automatic brake, direct brake and/or other brake systems . 24

Annex A (normative) Overview of the tests 25

Annex ZA (informative) Relationship between this European Standard and the essential requirements of EU Directive 2008/57/EC aimed to be covered 27
