DIN EN 15624:2021-04 (E)

Railway applications - Braking - Empty-loaded changeover devices

Contents

Page

European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Design and manufacture 7
4.1 General 7
4.2 Functional requirements 7
4.2.1 General 7
4.2.2 Automatic empty-loaded changeover device 8
4.2.3 Pneumatic device characteristics 9
4.2.4 Automatic hydraulic to pneumatic converter 10
4.2.5 Automatic elastomeric to pneumatic converter 10
4.2.6 Components for operation of the manual empty-loaded changeover device 10
4.3 Shock and vibration 11
4.4 Environmental conditions 11
4.4.1 General 11
4.4.2 Ambient temperature 11
4.4.3 Altitude 11
4.4.4 Humidity 11
4.4.5 Rain 12
4.4.6 Snow, ice and hail 12
4.4.7 Solar radiation 12
4.4.8 Pollution 12
4.5 Design requirements regarding pressure stress 12
4.6 Tightness 12
4.7 Service life 13
4.8 Compressed air quality 13
4.9 Fire behaviour 13
4.10 External appearance 13
4.11 Pneumatic interfaces 13

5 Type tests 13
5.1 General 13
5.2 Individual automatic empty-loaded changeover device type tests 14
5.2.1 Test bench for individual automatic empty-loaded changeover device type tests 14
5.2.2 Sampling for type tests 14
5.2.3 Test requirements 14
5.2.4 Check of physical and geometrical characteristics 15
5.2.5 Tightness 15
5.2.6 Changeover operation - empty to loaded 16
5.2.7 Changeover operation - loaded to empty 17
5.2.8 Response time - empty to loaded 17
5.2.9 Response time - loaded to empty 18
5.2.10 Shock and vibration tests 18
5.2.11 Operation at extreme temperatures 18

6 In-service assessment 19

7 Designation 20

8 Identification and marking 20
8.1 Identification 20
8.2 Changeover plate for the manual empty-loaded changeover device 20

Annex A(informative) Assessment of an empty-loaded changeover device when fitted to a vehicle 21

A.1 General 21
A.2 Design acceptance testing set-up 21
A.3 Static testing 21
A.3.1 Vehicle requirements 21
A.3.2 Test procedures 21
A.3.2.1 Changeover setting of automatic empty-loaded changeover devices 21
A.3.2.1.1 Procedure 21
A.3.2.1.2 Pass/fail criteria 21
A.3.2.2 Effects on brake characteristics 22
A.3.2.2.1 General 22
A.3.2.2.2 Procedure 22
A.3.2.2.3 Pass/fail criteria 22
A.4 Running tests 22
A.4.1 General 22
A.4.2 Pneumatic empty-loaded changeover device - Air consumption 22
A.4.2.1 Procedure 22
A.4.2.2 Pass/fail criteria 22
A.4.3 Pneumatic empty-loaded changeover device - Impact of vibrations on the output signal . 23
A.4.3.1 Procedure 23
A.4.3.2 Pass/fail criteria 23

Annex B(informative) Examples of manual empty-loaded changeover device handles and changeover plates 24

Annex C(informative) Test bench diagram 26

Annex D(normative) In-service assessment 27

Annex ZA(informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2016/797/EU aimed to be covered 28
