

DIN EN 15085-5:2023-05 (E)

Railway applications - Welding of railway vehicles and components - Part 5: Inspection, testing and documentation

Contents		Page
European foreword		3
Introduction		5
1	Scope	6
2	Normative references	6
3	Terms and definitions	7
4	Inspection and testing of welded joints	7
4.1	General	7
4.2	Inspection and testing before welding	7
4.2.1	Welding coordination team	7
4.2.2	Welder or welding operator	7
4.3	Inspection and testing during welding	8
4.3.1	Welding coordination team	8
4.3.2	Welder or welding operator	8
4.4	Inspection and testing after welding	8
4.4.1	General	8
4.4.2	Welding coordination team	8
4.4.3	Welder or welding operator	8
4.5	Qualification of visual inspection personnel	8
4.5.1	General	8
4.5.2	Visual Inspection	9
4.6	Requirement for other non-destructive examination personnel	9
4.7	Type and extent of non-destructive testing	9
4.8	First article inspection (FAI)	10
4.8.1	General	10
4.8.2	Requirements for first article inspection (FAI)	11
4.8.3	Documentation requirements of the FAI	12
5	Test planning	12
6	Documentation	13
7	Management of welding defects	13
7.1	General	13
7.2	Non-conformance management process	13
8	Traceability	14
Annex ZA (informative)	Relationship between this European Standard and the Essential requirements of Directive (EU) 2016/797 aimed to be covered	15
