DIN EN 15085-4:2023-05 (E)

Railway applications - Welding of railway vehicles and components - Part 4: Production requirements

Contents

Page

European foreword 4

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 9

4 Preparation before welding 10
4.1 Welding planning documents 10
4.1.1 General 10
4.1.2 Working plans 10
4.1.3 Additional welding planning documents 11
4.1.4 Welding procedure specification (WPS) 11
4.1.5 Training and qualification of welders and operators 11
4.2 Supplementary weld tests 12
4.2.1 General 12
4.2.2 Production weld tests to demonstrate the suitability of the design 13
4.2.3 Production weld tests to demonstrate the suitability of the welding conditions 13
4.2.4 Production weld tests to demonstrate the skill of the welder 14
4.2.5 Production weld tests to demonstrate the quality of the welded joint 14
4.2.6 Production weld tests to demonstrate the quality of electron beam, laser beam and laser-arc hybrid welds 15
4.2.7 Production weld tests to demonstrate the quality of resistance spot, roll seam and projection welds 15
4.2.8 Production weld tests to demonstrate the quality of flash welds 15
4.2.9 Production weld tests to demonstrate the quality of stud welds 15
4.2.10 Production weld tests to demonstrate the quality of friction stir welded joints 15

5 Requirements for welding 15
5.1 General 15
5.2 General requirements 15
5.2.1 Weld preparation and other requirements 15
5.2.2 Execution of the welding 16
5.2.3 Weld quality 17
5.3 Welding consumables 18
5.3.1 Choice of welding consumables 18
5.3.2 Conformity of welding consumables 18
5.3.3 Storage and handling 18
5.4 Parent materials 19
5.4.1 Choice of parent materials 19
5.4.2 Conformity of parent materials 19
5.4.3 Additional rules for welding carbon and fine grained structural steels 19
5.4.4 Additional rules for welding of cast irons 19
5.4.5 Additional rules for welding stainless steels 19
5.4.6 Additional rules for welding carbon or fine grain structural steels with stainless steels 20
5.4.7 Additional rules for welding aluminium and aluminium alloys 20
5.5 Welding processes 20

Annex A (informative) Guidance on the choice of filler material 22

A.1 General 22
A.2 Non-alloy steel with non alloy steel 22
A.3 Stainless steel with stainless steel or non alloy steel 22
A.4 Aluminium and its alloys 23
A.5 Other parent metals 23

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of Directive (EU) 2016/797 aimed to be covered 26
