

DIN EN 15085-4:2023-05 (E)

Railway applications - Welding of railway vehicles and components - Part 4: Production requirements

Contents		Page
European foreword		4
Introduction		6
1	Scope	7
2	Normative references	7
3	Terms and definitions	9
4	Preparation before welding	10
4.1	Welding planning documents	10
4.1.1	General	10
4.1.2	Working plans	10
4.1.3	Additional welding planning documents	11
4.1.4	Welding procedure specification (WPS)	11
4.1.5	Training and qualification of welders and operators	11
4.2	Supplementary weld tests	12
4.2.1	General	12
4.2.2	Production weld tests to demonstrate the suitability of the design	13
4.2.3	Production weld tests to demonstrate the suitability of the welding conditions	13
4.2.4	Production weld tests to demonstrate the skill of the welder	14
4.2.5	Production weld tests to demonstrate the quality of the welded joint	14
4.2.6	Production weld tests to demonstrate the quality of electron beam, laser beam and laser-arc hybrid welds	15
4.2.7	Production weld tests to demonstrate the quality of resistance spot, roll seam and projection welds	15
4.2.8	Production weld tests to demonstrate the quality of flash welds	15
4.2.9	Production weld tests to demonstrate the quality of stud welds	15
4.2.10	Production weld tests to demonstrate the quality of friction stir welded joints	15
5	Requirements for welding	15
5.1	General	15
5.2	General requirements	15
5.2.1	Weld preparation and other requirements	15
5.2.2	Execution of the welding	16
5.2.3	Weld quality	17
5.3	Welding consumables	18
5.3.1	Choice of welding consumables	18
5.3.2	Conformity of welding consumables	18
5.3.3	Storage and handling	18
5.4	Parent materials	19
5.4.1	Choice of parent materials	19
5.4.2	Conformity of parent materials	19
5.4.3	Additional rules for welding carbon and fine grained structural steels	19
5.4.4	Additional rules for welding of cast irons	19
5.4.5	Additional rules for welding stainless steels	19
5.4.6	Additional rules for welding carbon or fine grain structural steels with stainless steels	20
5.4.7	Additional rules for welding aluminium and aluminium alloys	20
5.5	Welding processes	20

Annex A (informative) Guidance on the choice of filler material	22
A.1 General	22
A.2 Non-alloy steel with non alloy steel	22
A.3 Stainless steel with stainless steel or non alloy steel	22
A.4 Aluminium and its alloys	23
A.5 Other parent metals	23
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of Directive (EU) 2016/797 aimed to be covered	26
Bibliography	28
