

DIN EN 15654-1:2023-08 (E)

Railway applications - Measurement of vertical forces on wheels and wheelsets - Part 1: On-track measurement sites for vehicles in service (includes Amendment A1:2023)

Contents	Page
European foreword.....	4
Introduction	5
1 Scope.....	6
2 Normative references.....	7
3 Terms, definitions, symbols and abbreviations.....	7
3.1 Terms and definitions	7
3.2 Abbreviations	10
3.3 Symbols, quantity and dimension	10
4 Measured and derived quantities	11
4.1 Measured quantities	11
4.2 Mandatory derived quantities.....	11
4.3 Optional derived quantities	11
5 Metrological characteristics.....	14
5.1 General.....	14
5.2 Accuracy classes	14
5.3 Measurement and calibration range.....	16
5.4 Influence quantities	17
5.5 Condition of use	17
6 Technical requirements.....	18
6.1 Train and vehicle related capability	18
6.2 Environmental.....	18
6.3 Inputs and Outputs	19
6.4 Descriptive markings.....	23
6.5 Measuring device specific	24
6.6 Measuring site specific.....	25
Annex A (informative) Device assessment frame work	26
A.1 Introduction.....	26
A.2 Type approval test.....	26
A.3 Initial verification	26
A.4 In-service verification	26
A.5 Adjustment and verification methods.....	26
Annex B (informative) Measurement site selection criteria.....	27
B.1 Introduction.....	27
B.2 Measurement site.....	27
B.2.1 General.....	27
B.2.2 Approach track and/or leaving track	27
B.2.3 Lead-on and/or lead-off track	27

B.2.4	Instrumented track.....	28
B.3	Criteria for site selection	28
B.3.1	General	28
B.3.2	Track structure.....	28
B.3.3	Track substructure	30
B.3.4	Surroundings.....	30
B.3.5	Track geometry maintenance limits.....	30
	Annex C (informative) Data exchange format	32
C.1	Introduction.....	32
C.2	Example 1	32
C.3	Example 2: mandatory values	36
	Annex D (informative) Usage of data and accuracy classes.....	38
D.1	Introduction.....	38
D.2	Typical applications.....	38
D.2.1	Monitoring vehicle loading	38
D.2.2	Threshold/Compliance monitoring.....	38
D.2.3	Track access charging	40
D.2.4	Vehicle condition monitoring	40
D.2.5	Track load monitoring (track maintenance/track renewal forecasting)	40
	Bibliography	41
