DIN EN 15955-1:2025-11 (E)

Railway applications - Infrastructure - Demountable machines, trailers and associated equipment - Part 1: Technical requirements for travelling and working

Contents

Page

European foreword 6

Introduction 8

1 Scope 9

2 Normative references 10

3 Terms and definitions 11

4 Hazards and categories 13
4.1 List of significant hazards 13
4.2 Examples of demountable machines and trailers 14
4.3 Attachments with rail wheels 14

5 Requirements and/or measures 14
5.1 General 14
5.2 Machine profile 15
5.2.1 Travelling mode gauge profile 15
5.2.2 Working limit 16
5.2.3 Determination of lateral limit of exceedance allowed on curves in working mode 16
5.2.4 Limits in lower area 16
5.2.5 Working limit in the upper area - protection for the operator 17
5.3 Interaction with the infrastructure 17
5.3.1 General 17
5.3.2 Loads applied to the ballast 18
5.3.3 Loads applied to the formation 18
5.3.4 Rail gear 18
5.4 Running safety equipment 18
5.5 Inter-machine couplings 18
5.5.1 Couplings 18
5.5.2 Special case for trailer that cannot be coupled with other trailers 18
5.6 Braking 19
5.6.1 General 19
5.6.2 Braking of towing machines 19
5.6.3 Braking of trailers 19
5.6.4 Breakaway braking of trailers 20
5.6.5 Continuous service air brake system compatible with UIC brake 20
5.6.6 Air continuous brake for trailers 20
5.7 Driving and working cabs 20
5.8 Communications between work positions 20
5.9 Controls 21
5.10 Visibility and audibility of the machine 21
5.10.1 Requirements for demountable machines 21
5.10.2 Requirements for trailers 21
5.10.3 Trailer light switching arrangements 21
5.11 Warning systems 22
5.12 Warning systems for personnel of traffic on adjacent lines in working mode 22
5.13 Electrical system 22
5.13.1 General 22
5.13.2 Working environment 22

5.13.3 Specific requirements for urban rail machines for working with live overhead contact line systems ... 22
5.14 Electromagnetic compatibility ... 23
5.14.1 Emissions from machines ... 23
5.14.2 Immunity of machines from railway environment ... 23
5.15 Power supply ... 23
5.16 On and off tracking ... 23
5.16.1 General ... 23
5.16.2 Use of turntables ... 24
5.17 Setting up and packing away ... 24
5.18 General and railway specific attachments ... 24
5.19 Emergency stopping devices ... 24
5.20 Emission of gas and particles ... 24
5.21 Protection from the risks of fire ... 24
5.22 Trailer obscuring operator view ... 25
5.23 Demountable modules ... 25
5.24 Rated capacity indicator/rated capacity limiter (RCI / RCL) ... 25
5.25 Climatic conditions ... 25

6 Trailers used to carry machines ... 26

7 Marking and numbering of the machine ... 26
7.1 Identification plate ... 26
7.2 Marking ... 26

8 Documentation ... 27
8.1 General ... 27
8.2 Technical description ... 27
8.3 Instructions for use ... 27
8.4 Restrictions of use ... 28

9 Verification of the conformity to the requirements and/or particular safety measures ... 28
9.1 General ... 28
9.2 Methods of examination ... 28
9.2.1 General ... 28
9.2.2 Visual check ... 28
9.2.3 Measurement ... 28
9.2.4 Functional test ... 28
9.2.5 Load test(s) ... 28
9.2.6 Specific verification/measurements and other controls ... 29

Annex A (normative) Special national conditions ... 30

Annex B (normative) Checklist for conformity ... 38

Annex C (informative) Technical details for buffing and draw gear ... 42

C.1 General ... 42
C.2 Draw gear constituent parts ... 42
C.2.1 Coupling part ... 42
C.2.2 Tow bar ... 42
C.2.3 Screw coupling ... 43
C.3 Application ... 43
C.4 User information ... 43

Bibliography ... 44
