ISO/TS 17539:2026-03 (E)

Railway applications - Track foundation - Observation and evaluation method of railway subgrade settlement and deformation

Contents

Page

Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Technical provisions of measurement **3**

5 Observation marks and components **3**

6 Processing of observation data **4**

7 Observation schemes for earthworks **5**

7.1 Observation principles 5

7.2 Layout of observation points 5

7.3 Observation frequency 8

7.4 Protective measure of monitoring instrument 8

8 Prediction and evaluation **9**

8.1 Prediction and analysis 9

8.2 Evaluation on settlement or deformation 9

8.3 Track laying evaluation criteria 10

Annex A (informative) **Frequency of earthworks settlement observation and track laying evaluation criteria** **11**
