

ISO/TS 17539:2026-03 (E)

Railway applications - Track foundation - Observation and evaluation method of railway subgrade settlement and deformation

Contents

Page

Foreword..... **iv**

Introduction..... **v**

1 Scope..... **1**

2 Normative references..... **1**

3 Terms and definitions..... **1**

4 Technical provisions of measurement..... **3**

5 Observation marks and components..... **3**

6 Processing of observation data..... **4**

7 Observation schemes for earthworks..... **5**

 7.1 Observation principles..... **5**

 7.2 Layout of observation points..... **5**

 7.3 Observation frequency..... **8**

 7.4 Protective measure of monitoring instrument..... **8**

8 Prediction and evaluation..... **9**

 8.1 Prediction and analysis..... **9**

 8.2 Evaluation on settlement or deformation..... **9**

 8.3 Track laying evaluation criteria..... **10**

Annex A (informative) Frequency of earthworks settlement observation and track laying evaluation criteria..... **11**
