ISO 24675-2:2026-04 (E)

Railway applications - Running time calculation for timetabling - Part 2: Distance-speed diagrams and speed curves

Contents

Page

Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

3.1 General terms 1

3.2 Terms related to infrastructure 2

3.3 Terms related to rolling stock 2

4 Relation between shortest running time and timetabling **3**

5 Running time calculation with a speed curve **4**

6 Calculation **4**

6.1 Basic principles 4

6.2 Calculation of a speed curve 5

6.3 Calculation of running time with a speed curve 6

7 Verification of accuracy of the calculation results **7**

Annex A (informative) **Examples of distance-speed diagrams** **14**

Annex B (informative) **Calculation procedures for a speed curve** **20**
