DIN EN 15179:2010-12 (E)

Railway applications - Braking - Requirements for the brake system of coaches

Contents

Page

Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 8

4 Symbols and abbreviations 10

5 Requirements 11
5.1 General 11
5.2 Climatic conditions 11
5.3 Brake control 11
5.3.1 Basic principles 11
5.3.2 Components of the basic system 12
5.3.3 Additional braking devices 16
5.4 Thermal capacity 17
5.4.1 Principles 17
5.4.2 Disc brake 17
5.4.3 Tread brake 18
5.4.4 Dynamic brakes 18
5.5 Brake performance 18
5.5.1 General 18
5.5.2 Brake positions (basic system) 18
5.5.3 Brake positions and additional brake system 19
5.6 Other brake components 19
5.6.1 Parking brake 19
5.6.2 Arrangement of components at the end of the coach 20
5.6.3 Brake inscriptions and braked weight inscriptions 20
5.7 Other specifications 21
5.7.1 Maintenance, accessibility 21
5.7.2 Fault finding 21
5.7.3 Operating conditions 21
5.7.4 Special requirements for multi-section coaches (modular passenger train) 22
5.7.5 Requirements for equipment fitted at driving positions in driving trailers 22
5.8 Requirements for internal traffic in the United Kingdom 22

Annex A (normative) Brake system of vehicles with UIC air brake 23

Annex B (normative) Common train configurations 25

Annex C (informative) Drainage devices, valves 26

Annex D (informative) Equipment fitted at driving positions in driving trailers 30

Annex E (normative) Requirements for internal traffic in the United Kingdom 32

E.1 General 32
E.2 Normative references 32

E.3 Brake systems other than those covered by the requirements of UIC 32
E.4 Functions at train level 33
E.5 Functions at vehicle level 33
E.5.1 Brake command and control 33
E.5.2 Brake force application system 34
E.6 Braking performance 34
E.6.1 General 34
E.6.2 Braking performance of trains operating on UK infrastructures 35

Annex F (informative) Functional representation of the EBO system of the DB 36

F.1 Introduction 36
F.2 Design of the emergency brake override in conjunction with electro-pneumatic brake control 36
F.2.1 Electro-pneumatic brake control (ep) 36
F.2.2 Emergency brake override (EBO) 36
F.3 Transmission systems for information and control commands in the DB system 37

Annex G (informative) Emergency brake handles 40

Annex H (informative) Basic arrangement of the brake system and arrangement of the brake pipes 41

Bibliography 47
