

# DIN EN 15179:2010-12 (E)

## Railway applications - Braking - Requirements for the brake system of coaches

---

<b>Contents</b>		<b>Page</b>
Foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	8
4	Symbols and abbreviations .....	10
5	Requirements .....	11
5.1	General .....	11
5.2	Climatic conditions .....	11
5.3	Brake control .....	11
5.3.1	Basic principles .....	11
5.3.2	Components of the basic system .....	12
5.3.3	Additional braking devices .....	16
5.4	Thermal capacity .....	17
5.4.1	Principles .....	17
5.4.2	Disc brake .....	17
5.4.3	Tread brake .....	18
5.4.4	Dynamic brakes .....	18
5.5	Brake performance .....	18
5.5.1	General .....	18
5.5.2	Brake positions (basic system) .....	18
5.5.3	Brake positions and additional brake system .....	19
5.6	Other brake components .....	19
5.6.1	Parking brake .....	19
5.6.2	Arrangement of components at the end of the coach .....	20
5.6.3	Brake inscriptions and braked weight inscriptions .....	20
5.7	Other specifications .....	21
5.7.1	Maintenance, accessibility .....	21
5.7.2	Fault finding .....	21
5.7.3	Operating conditions .....	21
5.7.4	Special requirements for multi-section coaches (modular passenger train) .....	22
5.7.5	Requirements for equipment fitted at driving positions in driving trailers .....	22
5.8	Requirements for internal traffic in the United Kingdom .....	22
Annex A (normative) Brake system of vehicles with UIC air brake .....		23
Annex B (normative) Common train configurations .....		25
Annex C (informative) Drainage devices, valves .....		26
Annex D (informative) Equipment fitted at driving positions in driving trailers .....		30
Annex E (normative) Requirements for internal traffic in the United Kingdom .....		32
E.1	General .....	32
E.2	Normative references .....	32

E.3	Brake systems other than those covered by the requirements of UIC .....	32
E.4	Functions at train level .....	33
E.5	Functions at vehicle level .....	33
E.5.1	Brake command and control .....	33
E.5.2	Brake force application system .....	34
E.6	Braking performance .....	34
E.6.1	General .....	34
E.6.2	Braking performance of trains operating on UK infrastructures .....	35
<b>Annex F (informative) Functional representation of the EBO system of the DB .....</b>		<b>36</b>
F.1	Introduction .....	36
F.2	Design of the emergency brake override in conjunction with electro-pneumatic brake control .....	36
F.2.1	Electro-pneumatic brake control (ep) .....	36
F.2.2	Emergency brake override (EBO) .....	36
F.3	Transmission systems for information and control commands in the DB system .....	37
<b>Annex G (informative) Emergency brake handles .....</b>		<b>40</b>
<b>Annex H (informative) Basic arrangement of the brake system and arrangement of the brake pipes</b>		<b>41</b>
<b>Bibliography .....</b>		<b>47</b>
